## Experience

### Full Stack Web Developer | Remote

JACOME - Innovation Solution Feb 2023 - Present

- Leveraged Next.js and Bootstrap to create responsive and visually appealing web applications.
- Developed both front-end and back-end components, ensuring seamless user experiences.
- Successfully deployed projects on a shared hosting platform, optimizing performance and accessibility.
- Demonstrated adaptability and quick learning to keep pace with evolving web development technologies.

### Full stack Web Developer | Freelancer

Upwork

Jan 2021 - Present

- Worked closely with clients to create tailored web solutions, delivering responsive and visually engaging websites using HTML, CSS, and JavaScript. Utilized Bootstrap and React to enhance UI and UX. Maintained effective communication, managed multiple projects, and demonstrated strong problem-solving skills to ensure successful project delivery.

### Full Stack Web Developer | Remote

Miracle IT Consulting

March 2021 - May 2023

- Collaborated in a dynamic team to design, develop, and deploy user-friendly web applications using HTML, CSS, and JavaScript.
- Crafted responsive, cross-browser-compatible front-end interfaces, utilizing modern JavaScript frameworks | React.js and Next.js.
- Implemented back-end functionality using Node.js and Express, creating RESTful APIs to handle data processing and retrieval.
- Optimized our code, resulting in a 15% decrease in latency.
